coupled with advances in various disciplines of human thought in modern times.

for personal, professional and spiritual growth
and for organizational and social transformation.

Workshops in India

June – July, 2011

Basic Workshop

A workshop on 'Human Behavior' based on Chaturvarna System of Dharmic Thought, combined with the dynamics of modern family and work environments.

5000+ years ago, Sages of India had discovered something extra-ordinary; that there are only four energies behind what seems to be limitless diversity of humanity. They called the four energies as 'chaturvarna' or four colors. Medha Jananam re-discovered the immense depth and wide applicability of this concept, in every area of life. In this workshop the participants will learn about the four energies, identify the energy dominant in them and the people in their life. Concepts from this workshop can be applied in every aspect of life, such as raising children, mending relationships, creating successful, effective teams, departments and organizations. It helps the participants understand the short comings of the current education system and corporations and how to transform them.

Advance Workshop

A workshop on the 'Drama of Life' based on Aum, Brahman, Prakriti and Purusha, etc. concepts of Dharmic Thought, combined with modern Cosmology, Sociology and Psychology.

We are not made in one day. The carbon atoms, the oxygen atoms and the hydrogen atoms have always been there. There is a huge amount of sheer magic that happened, before we became what we are. All that magic is captured inside of us and outside of us. The more we know about this and the more we understand it, the more we will be able to enjoy this life and succeed with it. It gives us deep insights into life here and life beyond.

In this workshop, we delve deep into the layers inside of us and the world outside of us and understand how we connect them physically, intellectually and emotionally. Once we get a handle on that, the doors for joy and effectiveness open up. We will radiate our thought and energies in full around us. It makes us happy, fulfilled and meaningful.

On the way, in this workshop, we get deep insights into how the society and people function and how they interact with each other. This knowledge helps everyone interested in transforming not only themselves, but also the society.

This workshop is built upon deep concepts of Dharmic Thought such as Aum, Brahman, Prakriti, Purusha, etc. (they are neither religious nor philosophic as many people think – they have very practical significance for the inquiring mind as well as for people who want to improve themselves) combined with knowledge and concepts from developments in every discipline of human thought.

The benefits of this workshop vary from individual to individual and depend on their background and knowledge. From simple housewives to Ph.D. students to managers in multi-national corporations found this workshop extremely useful.

General Guidelines:

Interested people should register themselves for the workshop on Medha Jananam website. The link to register is:
http://medhajananam.org/?p=register

- The doors will be closed 30 minutes after the start of the workshop, i.e., after 10:00am each day. Even pre-registered participants will not be allowed after that.
- The workshop content is highly packed and even missing half an hour will have negative impact on the learning. Hence, participants that step out for more than 30 minutes for any reason on any day, will be asked to discontinue the workshop. The registration fee will be refunded on a pro-rated basis. Participants are advised to make sure they do not have any other conflicts during the course of the workshop.
- Lunch is included in the workshops at IIIT.
