Workshop on Personality Colors

Based on 5000+ year old Varnasrama System of India.

Offered by Medha Jananam

www.medhajananam.org

Workshop Name	Personality Colors Based on 5000+ year old Varnasrama System of India.
Offered by	Medha Jananam (www.medhajananam.org)
Instructor	Krishna Dhullipalla (More instructors are being trained).
Length	16 hours spread over 2 days (Two consecutive days on a single weekend is preferred to increase the impact of learning.)
Description	**Day 1:** Participants will be introduced to the four personality colors (Green, Red, Yellow and Blue) in a systematic manner using ~120 slides. Using some 50+ simple aspects of life such as answering a phone call, investing money, picking a restaurant for dinner, etc., each participant will nail down his or her own personality color. **Day 2:** Colors influence our thoughts and actions in all spheres of life, including personal, social and spiritual lives. Day 2 provides many insights into our thought processes in all spheres of activity and how they can be optimized for leading better lives.
Benefits	On a scale of 1 to 5, if we are asked to rate ourselves about how well we understand ourselves, and people in our lives such as, spouse, children, parents, siblings, colleagues or customers, not many of us can rate ourselves at 5. However, life moves on, with many things never understood or reconciled. Over years, things either become hard or insipid, unless can understand or connect with everyone around us. The knowledge of personality colors, which is hard to find anywhere else, gives the participant new eyes to look at yourself and others clearly. Participants will learn a new way of dealing with their spouse and children at home as well as with managers, employees, coworkers and customers at work. Participants gain a deep perspective on, why even in matters of spirituality, members of the same family differ with each other. The content of this workshop is based on 5000+ year old Varnasrama System of India, and has a simple yet powerful theoretical and empirical foundation. It is presented in a scientific yet enjoyable manner. Participants are encouraged to get food and share with others during the workshop, to encourage building relationships and using other participants as sounding boards. This workshop is conducted several times over in USA and India, since 2009. The blogs on the website (www.medhajananam.org/tm) provides the feedback from many of the previous participants how colors helped, and even changed, their lives in many ways.
